Govee Smart Mini Panel Lights (10 pack)

Create stunning light displays with customizable wall LED panels. Our next-generation LED panel light system features unlimited DIY possibilities and intelligent control.

- **Unlimited DIY Modeling Possibilities:** This square light can be freely spliced by pressing to the connecting piecesthrough four sides, greatly enhancing the flexibility of DIY modeling and opening up unlimited possibilities for creative play.

- **Intelligent Graphics Recognition:** The new generation of Govee Panel Lights feature a built-in MCU chip, which can realize intelligent recognition of graphics via the app after splicing the panel lights.

- **RGBIC Wall LED Panels:** The curved PC transparent lampshade gives LED wall panels a dynamic three-dimensional style, and the RGBIC technology presents the vibrant colors of the lamp with an independent chip.

- **Expansion & Splicing Support:** A single power adapter can connect up to 70 cube smart wall lights. Through Govee Home App, you can personalize each light panel to achieve pixel art effects.

- **Multi-Scenario Use:** 50+ new scene lighting effects and music synchronization modes available. These LED panel lights can be perfectly integrated into the bedroom, living room, children's room, game room, etc.

- **Voice Control:** Compatible with Matter, Google Assistant, and Alexa, these LED panel lights allow you to adjust lighting with just your voice, turning any space into an enchanting environment that suits your mood and activities.
