Smart Password Padlock

Operation Method Guide

01

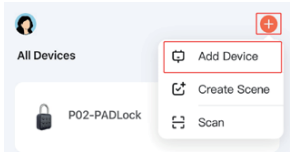

Product Specifications:

Unlocking Method: Button password / Management through Tuya Smart Platform
Password Length: 6-digit numbers (ranging from 1 to 9)
Storage Capacity: 200 groups of passwords
Waterproof Rating: IP67
Standby Time: 6 months
Battery Level Indicator: The red light flashes to indicate low battery level after unlocking.
Battery Type: Two button CR2032 batteries
Operating Temperature: -15 °C to 45 °C
Product Material: Zinc alloy + ABS front cover + Stainless steel lock hook

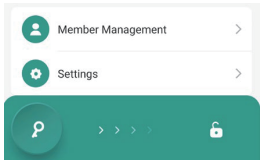

First, remove the plastic film on the back of the lock, and then the product will start to power on and operate. The default password of this lock at the factory is 123456, and you can unlock the lock by entering this password. After registering a new password, the default password will automatically become invalid.

02

1、Download the "Tuya Smart" application program
Scan the QR code below to download the "Tuya Smart" application program.
2、Enable the Bluetooth function on your mobile phone
Open the application program and log in. To grant the application permission to access Bluetooth, go to the "My" page, then click the "Settings" icon in the upper right corner, and then select "Privacy Settings".
3、Wake up the padlock for operation
Press ①②on the padlock to wake it up. Then, click "Add Device" to add your padlock to the application program.

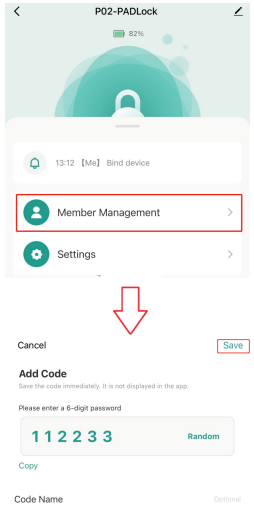

4、Unlock the Smart Padlock
On the main page of the smart padlock application, slide the key icon from the bottom left to the right until it coincides with the lock icon to unlock the padlock.
Note: If the Bluetooth connection is interrupted, press your finger on the fingerprint area to wake up the smart padlock. Then, click "Click to Connect".

03

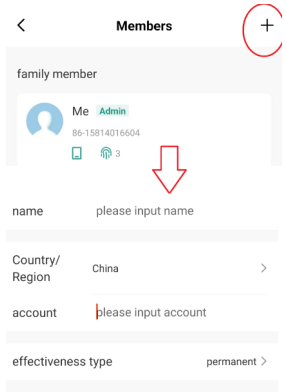

5、Add a Password

Please click on "Member Management", then select "Me", click "Add", enter the new password, and finally click "Save".

6、Share the Unlocking Authority

Please click on "Member Management", then click the "+" icon in the upper right corner. Click on "Share Member" to share the unlocking authority with visitors.
Note: Please make sure that the visitor's account has been registered in the Tuya application and the account information is accurate.

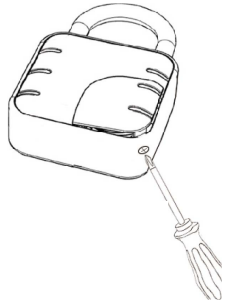

04

Troubleshooting

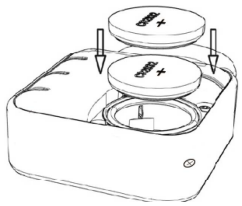

If the green light flashes when you enter the password but the lock still cannot be opened, please try replacing the batteries with brand-new ones first. Pay attention to the positive and negative poles of the batteries. If they are installed correctly, the red light will not flash continuously when you press the fingerprint.
If you forget the password, please connect to the lock via the APP, clear all the passwords, and then register a new password before continuing to use the lock.

OPERATION

Use a screwdriver to turn counterclockwise, remove the screws, and then open the battery cover.

Place the button cell batteries in anode face up and cathode face down. Then replace the battery cover.

Removing the battery will not delete the password

05

BATTERY DISPOSAL

CAUTION:Battery Safety and Disposal

Dispose of used batteries immediately. Keep new and used batteries away from children. If you suspect a battery has been swallowed or inserted into any part of the body, seek medical attention immediately. If the battery compartment cannot be securely closed, stop using the product and keep it away from children.

This product contains a battery and should not be treated as regular household waste. It must be recycled. Please take it to the nearest recycling facility or contact your local government for more information. Batteries contain substances that may be harmful to the environment and human health. Keep them out of reach of children. If accidentally swallowed, seek medical attention immediately.

⚠ Battery Warning!

Keep batteries out of reach of children.
Ingestion may cause chemical burns, soft tissue perforation, and death. Severe burns can occur within 2 hours of ingestion. Seek medical attention immediately.

Environmental Protection
Discarded electronic products should not be thrown away with household waste. Please recycle them at designated recycling facilities. For recycling guidance, consult your local government or retailers.
